MUHAMMAD SHOAIB SALEEM

FULL STACK SOFTWARE ENGINEER

Gujranwala, Pakistan | +92 324 1771864 | hi.shabimughal@gmail.com | linkedin.com/in/shabi-mughal | github.com/shabicreations033 | shabimughal.dev

PROFESSIONAL SUMMARY

Full Stack Software Engineer skilled in developing web and mobile applications using React, Node.js, Express, MongoDB, Flutter, and Firebase. Proficient in REST API development, authentication and authorization, interactive data dashboards, and Python-based data analysis. Focused on writing clean, maintainable, and secure code while building reliable, user-focused software solutions.

EDUCATION

University of Central Punjab
Bachelor of Science in Computer Science | CGPA: 3.36 2023 – 2026

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, Dart, C++, C#, PHP
- **Frontend & Mobile:** React.js, HTML5/CSS3, Bootstrap, Chart.js, Flutter
- **Backend & Databases:** Node.js, Express.js, Flask, REST APIs, MongoDB, Mongoose, Firebase, Cloud Firestore, PHP, MySQL
- **Tools & Security:** Git/GitHub, Postman, Figma, OAuth 2.0, Passport.js, AES-256 encryption, Bcrypt

SOFTWARE ENGINEERING PROJECTS

TaskPoint: Peer-to-Peer Labour Marketplace | Flutter, Dart, Firebase, Google Maps 2026

- Engineered a cross-platform (Android/Web) marketplace connecting daily-wage workers with customers, featuring OTP login, real-time Cloud Firestore data sync, and Firebase Storage.
- Integrated live map discovery, bid/counter-offer pricing, real-time location tracking with sub-second latency, alongside on-device Roman Urdu/English voice search.
- Spearheaded trust and safety workflows, including automated CNIC verification and SOS logging, managed entirely via a custom Flutter Web admin dashboard.

AI Smart Warehouse & Delivery Management | Node.js, Express, MongoDB, Python, Flask 2026

- Architected a role-based logistics platform capable of managing 100+ daily deliveries, secured with Passport.js (Google OAuth 2.0 login) and bcrypt password hashing.
- Deployed a Python/Flask microservice for PositionStack route optimization and 30-day stock forecasting, boosting load-balancing efficiency by 30%.

Social Media Analytical Dashboard | HTML, CSS, JavaScript, PHP, MySQL, Chart.js 2026

- Constructed a secure PHP and MySQL analytics dashboard with session-protected authentication and full CRUD record management to track engagement metrics for 10,000+ simulated followers.
- Designed a MySQL schema and prepared-statement JSON APIs for Chart.js line, bar, pie and doughnut charts.

SafeState: Multi-Layered Cryptography Suite | Node.js, Express, MongoDB, BcryptJS, AES-256 2026

- Engineered a secure data vault utilizing AES-256-CBC encryption with randomized initialization vectors and classical ciphers (Hill, Vigenere, Rail Fence).
- Applied adaptive salting for password hashing and GCD-based invertibility checks to validate cipher key matrices, ensuring 100% cryptographic integrity.

CERTIFICATIONS & LEADERSHIP

- **Certifications:** Google AI Essentials & UX Design, Azure Fundamentals, GCP Security, AWS Prompt Engineering, n8n (2026)
- **Leadership & Initiatives:** 1 Million Prompters, HP LIFE Ambassador (2026)

LANGUAGES

- **Urdu:** Native
- **English:** Professional Proficiency
